# Living, Laughing and Learning

With

# Diana Waring

## Brisbane

## What is the conference about?

Diana and Bill have travelled for 20 years encouraging home school families. Diana's main aim for this conference tour is to meet and encourage Australian families and get to know our culture. The workshops will cover topics to do with parenting, homeschooling, learning styles and history. They are *not* specifically targeted at families who use Diana's curriculum. She will be bringing her books and CD's and you can pre-order if you like, but there is no pressure to purchase anything.

## Workshop Content

Diana's workshops are mainly geared toward general audiences and families with all beliefs. For more details on workshops refer to [www.dianadownunder.com](http://www.dianadownunder.com). Workshops containing overtly Christian content have been scheduled for the last session on Saturday.

## Lunch and afternoon tea.

Please bring a plate to share for afternoon tea. Coffee, tea and water will be provided.

## Children

Breastfeeding babies and youth aged 12 and over are welcome in the sessions. Room is available for children to attend but NO organised care is offered. All children in attendance must be well behaved and supervised by a responsible parent.

## Curriculum Supplies

There will be a limited number of curriculum suppliers at the conference. **Helping**

Please let us know if you are able to help on the day, we need people to assist with registrations, set up, tea / coffee etc.

## Saturday 10th October 2009

### Actively engage learning and Actually enjoy learning

One of the biggest questions people ask is, "How do I get my kids to finish their school work?" The deeper question is actually, "How do I get my kids to be self-motivated?" We will examine the answers to these critical questions, and look at specific ways to encourage and assist our children in developing ownership of their education. We must learn the critical difference between controlling and directing; between pushing and releasing; between coercing and facilitating. It is the essence of a master teacher who says, "I can not teach you how to do it, but I can help you learn to do it." This is an interactive and practical workshop that you can put to use immediately!

### History via the Scenic Route

Are you tired of force feeding history to your children? Does history make them yawn? Or, do you have one of those hungry-for-history type students that would devour far more than you could ever dream up to provide? Diana Waring will take you on an extraordinary learning adventure as she shares with you how to make the facts come alive and the learning go deeper!

### Box Free Living.

Rather than raising children to follow formulas, let us teach them using the principles of discipleship, and then have them "follow me as I follow Christ." And, rather than trying to force your home schooling to look like someone else's, let's learn to hear from the Lord just what is best for your own family. Instead of falling victim to preconceived judgments, from ourselves or from others, let's learn to find God's way for us in this home schooling journey.
