CONFERENCE

Living, Laughing and Learning With Diana Waring

2 3 - 2 4 O C T O B E R

Canberra

What is the conference about? Diana and Bill have travelled for 20 years encouraging home school families. Diana's main aim for this conference tour is to meet and encourage Australian families and get to know our culture. The workshops will cover topics to do with parenting, homeschooling, learning styles and history. They are *not* specifically targeted at families who use Diana's curriculum. She will be bringing her books and CD's and you can pre-order if you like, but there is no pressure to purchase anything.

Workshop Content Diana's workshops are mainly geared toward general audiences and families with all beliefs. For more details on workshops refer to www.dianadownunder.com. Workshops containing overtly Christian content have been scheduled for the last session on Saturday.

Lunch and afternoon tea. Please bring a plate to share for afternoon tea. Coffee, tea and water will be provided. BYO lunch or make use of the local Werribee Plaza, Milk bar, or Hoppers Crossing mall.

Children Youth 12 years and over are welcome at the conference workshops, as are nursing infants. Otherwise, please make alternate arrangements for your children. At this stage it is not anticipated that there will be any available childcare on-site

Curriculum Supplies In addition to Diana Waring's resources being for sale, there will be a small group of curriculum suppliers at the conference. These providers will be confirmed closer to the time.

Helping Please let us know if you are able to help on the day, we need people to assist with registrations, set up, tea / coffee etc.

Venue Dickson Baptist Church
Cowper St., Dickson Shopping Centre, ACT
(Opposite Dickson swimming pool)

Early Bird choices: There will be two general workshops and one history focussed workshop each day. If you register before June 30th, you have an opportunity to input into which history workshop is offered on each day. Please note your preference on the registration form. The most preferred seminar will be decided when Early Bird Registrations close, **June 30, 2009**.

Friday 23 October 2009

note all day friday (NOT the teens w/shop) contains Christian content

The Well Kept Secret of a biblical education. The Bible is our plumb line, our standard of knowing truth. Most Christians intrinsically understand that it is radically different than what our culture tells us, but how much have the prevailing culture and our own school experiences influenced our views on education, even in homeschooling?

History Option 1 Exposing the Wizard of OZ a Christians guide to teaching history. The essential crash course for every homeschool parent! Discover some insights from Diana's research behind the events of history. Share her wisdom for teaching history. Do you wonder "whom do I trust and what do I read to know real history?" Diana will equip you, regardless of your curriculum, to find a way through the challenges. She will lead you to a path you can follow in discovering the treasures of history with your family

History Option 2 Whatever happened to church history ? Designed to give an exciting overview of key events in Church History, this workshop will also assist parents and teens in understanding their Christian heritage. Events covered range from the Acts of the Apostles through the Middle Ages, the Reformation, the Great Awakening and up to the Modern Missions Movement, including exciting statistics concerning what God is doing throughout the world today

Got Teens ! What a challenge! What a blessing! What a reward! But what do we, as parents, do to see the blessing and to harvest the reward? This practical hands-on workshop looks at vision, opportunities and counsel in your teenagers life through such issues as: what can we do, through school subjects and training, to prepare our unfolding young adults; how do we home school when the subjects get harder; why should we study worldviews with them?... and so much more

Saturday 24 October 2009

Not just your average genius In this fast-paced, easy-to-understand workshop, you will distinguish three different grids that impact the unique way each one in your family learns: learning modalities (visual, auditory, kinaesthetic); learning styles (Feeler, Thinker, Sensor, Intuitor); learning intelligences (interpersonal, intrapersonal, linguistic, spatial, mathematical, bodily-kinaesthetic, musical, naturalist).

History Option 1 History via the scenic route. Are you tired of force-feeding history to your children? Does history make them yawn? Or, do you have one of those hungry –for-history type students that would devour far more than you could ever dream up to provide? Diana Waring will take you on an extraordinary learning adventure as she shares with you how to make the facts come alive and the learning go deeper! Join Diana's sit-on-the-edge-of-your-chair-in-suspense" history approach using literature, music, art, science, cooking and more, that has captivated home schoolers across five nations

History Option 2 Unlocking the mysteries of the middle ages. Join Diana for one of her specialties: a whirlwind tour through one thousand years of colourful characters and world changing events. Beginning with the fall of Rome and continuing all the way up to Gutenberg's printing press you will finally understand what is important and whom to follow in this mysterious millennium. Seatbelt use suggested – you're going to move fast!

Actively Engage Learning and Actually enjoy learning One of the biggest questions people ask is "how do I get my children to finish their school work?" The deeper question actually is "How do I get my children to be self motivated?" We will examine the answers to these critical questions and look at the specific ways to encourage and assist our children in developing ownership of their education. We must learn the difference between controlling and directing; between pushing and releasing; between coercing and facilitating. It is the essence of the master teacher who says, "I can not teach you how to do it, but I can help you learn to do it". This is an interactive and practical workshop that you can put to use immediately.
