The Well Kept Secret of a Biblical Education.

The Bible is our plumb line, our standard of knowing truth. Most Christians intrinsically understand that it is radically different than what our culture tells us, but how much have the prevailing culture and our own school experiences influenced our views on education, even in homeschooling? This powerful message, from an international speaker and twenty-plus-year veteran of homeschooling, will provide you with a foundational and scriptural framework for truly grasping and understanding education -- the content and the means -- from a Biblical perspective

Exposing the Wizard of Oz.

NEW! The essential crash course for every home school parent. Discover insights from Diana's research behind the events of history. Share her wisdom for teaching history. Do you wonder, "Whom do I trust and what do I read to know real history?" Diana will equip YOU, regardless of your curriculum, to find your way through the challenges. She will lead you to a path you can follow in discovering treasures of history with your family.

Raising World Changers_

Home schooling produces well-equipped, well-prepared young people.

We work hard at developing character, choosing the best school courses, protecting their hearts, and preparing them for leadership. Now, let's prepare them for the amazing adventure of bringing the Lordship of Jesus into every sphere of life. This workshop offers practical and Biblical means for accomplishing the task

Not just your average genius

In this fast-paced, easy-to-understand workshop, you will distinguish three different grids that impact the unique way each one in your family learns: learning modalities (visual, auditory, kinaesthetic); learning styles (Feeler, Thinker, Sensor, Intuitor); learning intelligences (interpersonal, intrapersonal, linguistic, spatial, math-logical, bodily-kinaesthetic, musical, naturalist).

History via the scenic route

Are you tired of force feeding history to your children? Does history make them yawn? Or, do you have one of those hungry-for-history type students that would devour far more than you could ever dream up to provide? Diana Waring will take you on an extraordinary learning adventure as she shares with you how to make the facts come alive and the learning go deeper!

Actively engage learning and Actually enjoy learning

One of the biggest questions people ask is, "How do I get my kids to finish their school work?" The deeper question is actually, "How do I get my kids to be self-motivated?" We will examine the answers to these critical questions, and look at specific ways to encourage and assist our children in developing ownership of their education. We must learn the critical difference between controlling and directing; between pushing and releasing; between coercing and facilitating. It is the essence of a master teacher who says, "I can not teach you how to do it, but I can help you learn to do it." This is an interactive and practical workshop that you can put to use immediately!
